

FEBRUARY 24 - 26

FOSSMeet '17

National Institute of Technology Calicut

About FOSSMeet

FOSSMeet is the annual event on Free and Open source software, conducted at National Institute of Technology Calicut to create awareness and encourage the use of free and open source software. The event includes a wide array of workshops, talks, hackathons, tech competitions, seminars and a lot more. FOSSMeet 2017 is a venture undertaken at NITC as a means to encourage the utilization of open source software in various fields.

The event hopes to encompass talks and seminars dealing with the current trends in open source software and hardware, opportunities to contribute to the community, workshops to develop one's abilities and become familiar with the latest technologies, competitions, on hacking, open hardware and so on. The meet intends to support the FOSS community, provide an open education system and disseminate FOSS ideology

Event Details

Started in 2005 as FLOSS (Free/Libre Open Source Software) Meet with a vision to create a culture of innovation, evolution and open standards, the meet intends to support the FOSS community, and bring together the Free and Open Source community around the country. The meet features wide range of workshops, discussions and lectures by eminent personalities. It also consists of various hands-on sessions which would help in contributing to various open source projects.

- Attended by FOSS enthusiasts and students from leading institutes.
- Nearly 700+ participants.
- Includes finest FOSS promoters and talented minds in FOSS community.
- Appraised as 4th biggest FOSS event in India *Atul Chutnis*, one of the main organizers of FOSS.IN
- Talks by eminent personalities like Dr. V. Sasi Kumar, a member of the FSF India Board of Directors, at FOSSMeet '16 and Nagarjuna G, Chairperson of Free Software Foundation of India, at FOSSMeet '14.

Past Editions

The first edition titled as Free/ Libre Open source software (FLOSS) Meet 2005 was a single day event with a handful of speakers. Born out of the vision of a small group of students, the event was a success among the student community as well as the speakers, with over 180 delegates attending the event.

In just three years, the meet grew into one of the major FOSS events held in the entire country witnessing over 450 delegates and 50 speakers. FOSSMeet in 2008 initiated FOSSDev, a year long competition to encourage student contribution to FOSS projects. The highlights of the following years included talks/discussions by Sasi Kumar, Baiju M, Noufal Ibrahim, Pramode C E, Praveen A, Steven Deobald, Tapasweni Pathak, Vaishali Thakkar, Anoop John, Abhas Abhinav, Balasankar C, Anoop Thomas Mathew, Nagarjuna G, Nigel Babu etc.

Delegates and Past Speakers

The participants of FOSSMeet '17 will include FOSS enthusiasts mainly students and professionals from various institutions across the country. Keeping in view of the success of the previous editions of FOSSMeet, we expect to have a participation of around 500+ delegates during FOSSMeet '17.

The event will include some of the finest promoters of FOSS and talented minds from the FOSS community. The panel of speakers will consist of vastly experienced and a passionate bunch of people, who are interested in becoming a part of the community.

About CSEA

Computer Science and Engineering Association is an integral part of the Computer Science and Engineering department of NIT Calicut. We organize events like coding competitions, technical workshops and talks by eminent researchers, which help in enhancing technical and scientific aptitude among students. We also provide a platform for interaction among the students from different courses and years, guidance on internships, placements, and projects, etc., by organizing regular talks and other events. CSEA also undertakes the maintenance of Labs and Web resources of the department.

Apart from these, organizing the orientation programme for the freshers of the incoming batch and the farewell programme for the outgoing batch are also the activities that CSEA takes care of.

About FOSSCell

FOSSCell NITC is the Free and Open Source Software Community at NITC. It mainly aims to popularize the use of FOSS and to spread awareness in the campus regarding its advantages through demonstrations, installation fests etc. It also encourage students to get involved in Free Software development - both community Free Software projects and events like the Google Summer of Code and discuss how and why FOSS can be used effectively in the curriculum, probably replacing proprietary tools.

The major activities conducted by FOSSCell NITC this year include Linux Boot Camp, Linux Workshop, Firefox OS Hackathon, Git Week, Rust Workshop etc.
